

# Accelerating Your Cell Therapy: A PACT Program Update

An interactive web seminar to discuss the revised PACT Program scope and collaborative efforts, and to highlight the broad range of regulatory support services. An example of 2 previous PACT clinical projects will be reviewed. The web seminar will also provide opportunity to answer attendees' questions about the program's goals, the application process and evaluation criteria, and the details surrounding PACT manufacturing assistance.

## -Speakers-

Robert Lindblad, MD – Chief Medical Officer, The Emmes Corporation

Lis Welniak, PhD – PACT Program Director, National Heart, Lung, and Blood Institute, NIH

Ann M. Leen, PhD – Assistant Professor, Department of Pediatrics, Baylor College of Medicine

David H. McKenna, Jr., MD – Director, Molecular and Cellular Therapeutics Facility, University of Minnesota

## -PACT Mission-

Provide assistance for cellular therapy translational research and the manufacture of cellular therapy products for pre-clinical and early phase clinical studies.

Visit [www.pactgroup.net](http://www.pactgroup.net) for information on the PACT program.
